THE BATON IS IN OUR HANDS

What we give today can become opportunity for a child.

What we strengthen today can become stability for a family.

What we build today can become resilience for a community.

And what we pass forward today can help shape the Eswatini our children inherit tomorrow.

YOUR CONTRIBUTION IS A STARTING POINT, NOT A CEILING.

Start where you can and give at a level that is sustainable for you. You may increase your contribution later, support more than one pathway, or combine financial giving with approved goods, expertise, skills or time.

Whether you give monthly, annually, once-off or through an approved in-kind contribution, your support becomes part of an organised SOS giving pathway.

YOU ARE PART OF SOMETHING BIGGER.

THE CHANGE WE WANT TO SEE

Every child needs a strong environment around them.

A child needs quality care and opportunities to thrive. A family needs the capacity and resources to provide that care. A household needs resilience and pathways towards self-sustainability. A community needs systems and opportunities that support families.

OUR STRATEGIC DESTINATION

Communities have self-sustaining households that provide quality care for every child.

OUR AMBITION

Households participating in SOS Children's Villages Eswatini programmes increasingly become self-sustaining and are able to provide quality care for every child.

Why Your Partnership Matters

Children today face challenges that no child should face alone. Poverty, family instability, limited opportunities, and barriers to education can prevent children from reaching their full potential.

PASSING THE BATON FOR FUTURE GENERATIONS

The future we want for children will not be created by SOS Children's Villages Eswatini alone.
It will take individuals, families, businesses, institutions and communities recognising that the future of Eswatini's children is a responsibility we share.
